

Vote for Erin Alyward

I am a mother of 4 beautifully amazing daughters, and a domestic abuse survivor. I am passionate about increasing the odds of victims becoming survivors. I have made some steps in the right direction at the bargaining table and now have started lobbying our government for better legislation in favour of future survivors. The more we speak about these issues the harder it is to hide it. I aim to make this world a safer place for our children live in.

A partial list of my activism includes:

- Being a highly active member of Local 401's Executive Board*
 - An active shop steward*
- I was a part of the bargaining committee for our last round of bargaining with Loblaws and have come away from that with profound knowledge of how our collective bargaining works within the Albertan context*
- Being a proud member of the AFL political action committee*
 - A member of the NDP women's committee*
- An active member of an Edmonton grass roots women's committee*
 - I have participated as a speaker at many actions*
 - Assisting in the planning of Take Back the Night Edmonton*
- I have and continue to commit to making a rose for every COVID death in Alberta to display on the anniversaries of COVID becoming a pandemic; over 5000 roses at this point*
- I am currently enrolled in the pilot of Local 401's Leadership Academy*

I commit to you that if given the honour to attend the International Convention, I will take every opportunity to rise to the mic and speak for the values of UFCW Local 401!
